Defensive Tackle John Burrough with the sack.

Cowboys By Position

First we have to see how he comes back from the knee surgery. He has played both guard and tackle for us. But there is a real chance he could move outside, and help the tackle position. One of our biggest problems here is experience, and he could certainly ease that worry. Jason Bartlett is a young guy, but he had a good spring. He would be our next guy after Heidemann. I think he is ready to step in, and help us at tackle. Steve Scifres has a tremendous amount to learn, but he is the best athlete in the offensive line. He is strong, and has good movement. Experience is what he needs. Ryan Oman is a big, young player who is very green,

but made progress during the spring. He is one of those guys who really needs to have a productive pre-fall. He is probably the biggest of our O-linemen (6-6, 285), and could really help us. He had post-spring shoulder surgery, so we'll have to see how he recovers from that. Mike Fitzgerald played tackle a good part of last season, and he can also step in. We still need to develop the entire line.

Receiver: Of course we are very gifted here with Ryan Yarborough. I don't think there are very many in this country better than he is. We held him out of padded practices intentionally this

spring. He should be ready to go. The loss of Eric Edmond hurts. He sat out the spring because of injury, then was declared ineligible, and will be lost for the season. So, after Yarborough, we have a couple of veterans, and some new kids on the block. The veterans are Curtis Dewberry and Brent Tillman. Dewberry is a very gifted athlete physically. Tillman needs to mature as a football player. We have three younger guys who received a lot of work during the spring . . . Will Holland, Richard Peace and Waymon Levingston. The fact that Yarborough and Edmond did not work during the spring really helped these guys, and helped the depth situation in this area. In addition we have a junior college transfer, Eddie Pratt, coming in this fall whom we think will give us a boost. We believe we have enough good receivers here for this position to be a plus for us.

Running Back: We went into the spring hoping to come out with four backs, and we feel we have that. Certainly Terrance Hendricks had a good spring, and appears to be back to his freshman form. Ryan Christopherson had an outstanding spring. He earned our "Pitbull" award which is probably our most coveted spring award. He is an outstanding leader. We thought the young guys Dana Day and Damon Turner showed some positive things. There is a fullback by the name of Billy Schmitz who may help us in certain situations. He proved to be an outstanding blocker during spring ball.

Quarterback: Certainly Joe Hughes is the guy. He had an excellent spring because he has really matured in the offense. He is like a coach on the field. We look for him to have an outstanding senior year. John Gustin showed some improvement. He seems to be getting a better grasp of offense, because he seems more relaxed. Scott Jones underwent disc surgery for his ailing back, and doctors are predicting complete recovery.

End: We feel we are in excellent shape in this area. We have a couple of proven veterans in Kurt Whitehead and Ty Williams. They were very productive during spring training, and we are very solid here because of them. We are anxious to see how Brent Schieffer returns. He missed all of spring with a bad back, and appears ready to go for the fall. At the end of last season he was our most effective defensive end. One of the most improved players on our defense this spring was Ken Boris, and he should have an impact on this position if he improves as much during the pre-fall as he did

during spring training. Brent Leu is a young guy with outstanding potential. We may see him as a spot player this fall.

Tackle: We have three veterans here, one of whom has moved, and a couple of young players. Thomas Williams, and Ty Hopkins saw a great deal of action at tackle a year ago. Both had good springs. We moved John Burrough from defensive end, and he was playing very well until he sprained his ankle. Tackle seems to be a better position for him. His height (6-5) inside forces people to throw over him. He also has excellent leg strength. Heath Petersen made some progress during the spring, and we believe if he can stay healthy that Travis Studie will be able to help us. We just haven't been able to get him on the field because of the injuries. We think we have at least four guys at tackle who can help us win. With the ends and tackles, we have felt all along that the defensive front could be a strength for us, and spring training did nothing to change our mind.

Linebacker: This is an area that concerned us going into spring training, and we are still concerned. We made some changes in moving guys around. We still do not have what I would call enough quality depth in this area. We have signed five linebackers for the fall, and there might be some depth among those five guys, even though they are young. **Weakside:** We feel we finally have Cory Talich where he belongs. He of course played in the middle for us, and played well. But his size was a problem at that position. He is instinctive and experienced, and had a good spring at this position. Mark Brook also had a good spring. He has outstanding foot speed which really helps him close on the ball. He could be a strongside guy as well. **Strongside:** Our two main guys here are Joe Cummings and Andy Reinwald. Joe has become a very solid player. He also saw some time last year in the middle, but he seems to be more suited for this position. He certainly could move in the middle if we had to have him. I think Joe is a potential leader for this football team. He will be a good player for us for some time to come. Reinwald had a good spring. He just seems to make plays for us. He has good speed, is a good hitter, and I think we'll have a hard time keeping him off of the field. **Middle:** The veteran here is Ryan Folsom. We are looking for him to have an outstanding season for us. Near the end of last season he was very effective. Behind Folsom we have a young player in Monti Perry. He is a redshirt freshman who had a good spring, but he is very inexperienced. I have a feeling that if something hap-

pened here we would have to look at one of the veterans who has played the position. But Monti, we believe, will be a good one in this program. As you can see with these three positions, we do not have a lot of depth. There is a possibility that we may find some among the five backers we are bringing in for the fall.

Secondary: We have three corners whom we feel very good about which is the first time since I've been here that I can make that statement. Thanks to a couple of junior college players our corner situation really came along well during spring training. We have the veteran, Prentice Rhone who had a very solid spring for us on one side, and Wade Constance on the other side. The jaycee transfer, Steve Hendrix, should be an excellent third corner. We seem to be in good shape. Where we have our concerns is at the safety positions. The starters here are a couple of veteran players in Rob Levin at strong, and Kenny Johnson at free. The guy who

really came along for us at safety was Erik Noland. He earned the top hitter award during the spring. Eric Rice also is a possibility at safety as is Chuck Polson. I think if we had to we also could move Constance to one of the safety spots.

Kicking Game: If our kickers improve as much in pre-fall as they did in the spring, then we will have a kicking game capable of helping this team. Kris Mindlin is getting better and better as a place kicker. He still is only going into his sophomore year, so he will continue to improve. Punter Brian Gragert also is in the same situation. He is only a sophomore, and he's going to continue to get better. Both of these individuals have the capability to be extremely effective. Our top returner is Prentice Rhone. He was all-WAC last year, and we expect him to be a major factor again this season. Our number one long snapper will be Cody Kelly, with Dan Jensen and Cory Talich as the back-ups. The top holder will be Gragert.
